Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

STAPA METALLIC 601 Aluminium Paste

Version 2.1	Revision Date 15.05.2020	Print Date 03.12.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	:	STAPA METALLIC 601	Aluminium Paste
Material number	:	057303G60M1	

1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH
	Guentersthal 4
	91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address	: msds.eckart@altana.com
Responsible/issuing person	

1.4 Emergency telephone number

NCEC: (contract no.: ECKART29003-NCEC) +44 1235 239671 (Middle East/Africa, call and response in your language) +1 215 207 0061 (Americas, call and response in your language) +65 3158 1074 (Asia-Pacific, call and response in your language)

SECTION 2: Hazards identification

GHS Classification

: Long-term (chronic) aquatic hazard, Category 3, H412

Page 1 / 18 102000030621	A member of C ALTANA
--------------------------	-----------------------------

STAPA METALLIC 601 Aluminium Paste

C ECKART

GHS-Labelling

Hazard statements	:	H412: Harmful to aquatic life with long lasting effects.
Precautionary statements	:	Prevention:P273Avoid release to the environment.Disposal:P501Dispose of contents/ container to an approved waste disposal plant.

Hazardous components which must be listed on the label

:

Other hazards which do not result in classification

Combustible Solids

SECTION 3: Composition/information on ingredients

Substance name : METALLIC R 607

Substance No.

Hazardous components

Chemical name	CAS-No.	Classification	n and Concentration[%]
	EINECS-No.	labelling	
aluminium powder (stabilised)	7429-90-5 231-072-3	Flam. Sol.;1;	H228 50 - 100
Naphtha (petroleum),	64742-48-9	Flam. Liq.;4;I	
hydrotreated heavy; Low boili point ydrogen treated naphtha		Asp. Tox.;1;H	1304
Solvent naphtha (petroleum),	64742-95-6	Flam. Liq.;3;I	H226 2,5 - 10
light arom.		Acute Tox.;5;	H303

--	---	--

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	 Move the victim to fresh air. Do not leave the victim unattended. No hazards which require special first aid measures.
If inhaled	: If unconscious, place in recovery position and seek medical advice.
	lf symptoms persist, call a physician.
In case of skin contact	: Wash off immediately with soap and plenty of water.
In case of eye contact	: Immediately flush eye(s) with plenty of water.
	Remove contact lenses.
	If eye irritation persists, consult a specialist.
If swallowed	: Keep respiratory tract clear.
	Do not give milk or alcoholic beverages.
	Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.
	ii symptoms persist, cai a physician.

4.2 Most important symptoms and effects, both acute and delayed

This information is not available.

4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

Page 3 / 18	102000030621	A member of 🜔 ALTANA

Version 2.1 Rev	ision Date 15.05.2020
-----------------	-----------------------

Print Date 03.12.2024

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	: Dry sand, Special powder against metal fire
Unsuitable extinguishing media	: Water, Foam, ABC powder, Carbon dioxide (CO2)

5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Use personal protective equipment.
		Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions,	protective	equipment and emergency procedures
Personal precautions	:	Evacuate personnel to safe areas.

eisonai piecaulions	•	L vacuale personner to sale aleas.
		Use personal protective equipment.
		Remove all sources of ignition.
		Avoid dust formation.

Page 4 / 18	102000030621	A member of C ALTANA
-------------	--------------	-----------------------------

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Version 2.1	Revision Date 15.05.2020	Print Date 03.12.2024
6.2 Environmental precautions		
Environmental precautions	: Prevent product from entering drains. If the product contaminates rivers and respective authorities.	
6.3 Methods and materials for con	ntainment and cleaning up	
Methods for cleaning up	 Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Sweep up and shovel. Do not flush with water. Keep in suitable, closed containers for disposal. 	
6.4 Reference to other sections		

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling Advice on safe handling : Keep away from heat and sources of ignition. Avoid dust formation. Ensure adequate ventilation. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Advice on protection against : Keep away from open flames, hot surfaces and sources of fire and explosion ignition. Earthing of containers and apparatuses is essential. Normal measures for preventive fire protection. Hygiene measures : General industrial hygiene practice. 7.2 Conditions for safe storage, including any incompatibilities Requirements for storage : Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep container closed when not in areas and containers

A member of C ALTANA

use. Keep away from sources of ignition - No smoking.

8.2 Exposure controls

Personal protective equipment Eye protection : Safety glasses Hand protection Material Solvent-resistant gloves : Take note of the information given by the producer concerning Remarks : permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. Page 10 / 18 102000030621 A member of **C ALTANA**
