# STAPA IL HYDROLAN 1580 Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 02.12.2024
8.0	16.01.2024	102000020062	Date of first issue: 02.01.2014

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier		
Trade name	:	STAPA IL HYDROLAN 1580 Aluminium Paste
Product code	:	053082GD0

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	:	Colouring agent
Substance/Mixture		Colouring agents, pigments

#### 1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address of person responsible for the SDS	: msds.eckart@altana.com

#### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

## **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Flammable solids, Category 1 Eye irritation, Category 2 Specific target organ toxicity - single exposure, Category 3, Central nervous system H228: Flammable solid.

H319: Causes serious eye irritation.

H336: May cause drowsiness or dizziness.

#### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

# STAPA IL HYDROLAN 1580 Aluminium Paste

Version 8.0	Revision Date: 16.01.2024	-	DS Number: 02000020062	Print Date: 02.12.2024 Date of first issue: 02.01.2014
Hazaro	d pictograms	:		!
Signal	word	:	Danger	•
Hazard	statements	:	H228 H319 H336	Flammable solid. Causes serious eye irritation. May cause drowsiness or dizziness.
Precau	utionary statements	:	Prevention: P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
			P261 P280	Avoid breathing dust. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
			Response:	
			P304 + P340 + P3	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell.
			P370 + P378	In case of fire: Use for extinction: Special powder for metal fires.
			P370 + P378	In case of fire: Use for extinction: Dry sand.

### Hazardous components which must be listed on the label:

propan-2-ol

Solvent naphtha (petroleum), light arom.

#### **Additional Labelling**

EUH208 Contains N-(3-(trimethoxysilyI)propyI)ethylenediamine. May produce an allergic reaction.

## 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Chemical nature : Pigment

## **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

General advice	: Move the victim to fresh air.
	Move out of dangerous area. Show this safety data sheet to the doctor in attendance.
lf inhaled	: Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.

### SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

May cause drowsiness or dizziness.

4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

## **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media	:	Dry sand Special powder against metal fire
Unsuitable extinguishing media	:	Carbon dioxide (CO2) ABC powder Water Foam

### 5.2 Special hazards arising from the substance or mixture

3.2 Opeoidi nazarus arising rom	unc	
Specific hazards during firefighting	:	Contact with water liberates extremely flammable gas (hydrogen).
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Use personal protective equipment.
		Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

according to Regulation (EC) No. 1907/2006

### **SECTION 6: Accidental release measures**

6.1 Personal precautions, protective	equipment and emergency procedures
Personal precautions :	Evacuate personnel to safe areas. Use personal protective equipment. Use personal protective equipment. Avoid dust formation. Remove all sources of ignition.
6.2 Environmental precautions	
General advice :	The product should not be allowed to enter drains, water courses or the soil. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for contain	nment and cleaning up
Methods for cleaning up :	Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Do not flush with water. Keep in suitable, closed containers for disposal.

### 6.4 Reference to other sections

For personal protection see section 8.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

Advice on protection against	<ul> <li>Keep away from heat and sources of ignition. Avoid dust formation. Ensure adequate ventilation. Avoid formation of respirable particles. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Dispose of rinse water in accordance with local and national regulations.</li> </ul>
Advice on protection against fire and explosion	: Earthing of containers and apparatuses is essential. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment.

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

#### 10.3 Possibility of hazardous reactions

 Hazardous reactions
 Reacts with alkalis, acids, halogenes and oxidizing agents. Contact with acids and alkalis may release hydrogen. Mixture reacts slowly with water resulting in evolution of hydrogen. Vapours may form explosive mixture with air. Stable under recommended storage conditions.

#### 10.4 Conditions to avoid

Conditions to avoid

: Do not allow to dry.

Heat, flames and sparks.

#### 10.5 Incompatible materials

Materials to avoid	: Acids
	Bases
	Oxidizing agents
	Highly halogenated compounds

#### 10.6 Hazardous decomposition products

This information is not available.

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Not classified based on available information.

### 11.2 Information on other hazards

### **Further information**

#### Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

### **SECTION 12: Ecological information**

#### 12.1 Toxicity

### Components:

#### Solvent naphtha (petroleum), light arom.:

#### Ecotoxicology Assessment

Chronic aquatic toxicity : Toxic to aquatic life with long lasting effects.

### 12.2 Persistence and degradability

No data available

**12.3 Bioaccumulative potential** No data available

# 12.4 Mobility in soil

No data available

### 12.5 Results of PBT and vPvB assessment

#### Product:

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## 12.6 Endocrine disrupting properties

No data available

#### 12.7 Other adverse effects

#### Product:

Additional ecological : No data available information

### Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha:
