

**STANDART®**  
**Zinc Matt Black**

Industrial Corrosion Protection with  
Premium Black Look

## STANDART® Zinc Matt Black

### Industrial Corrosion Protection with Premium Black Look

Elevate your anti-corrosion primers and coatings with our premium black zinc flake powder pigment: **STANDART® Zinc Matt Black**.

**STANDART® Zinc Matt Black** delivers an anthracite-black surface in basecoats, primers, and coatings, thanks to our advanced milling technology. This results in an intense dark matt black zinc that offers exceptional corrosion protection and superior rust resistance.

**STANDART® Zinc Matt Black** is available in powder form with a shelf life of 24 months.

#### Benefit from the following advantages:

- **Black Zinc Flake for Highest Protection:** No additional topcoats needed.
- **Versatile Applications:** Ideal for the automotive and general fasteners industry, including dip spin applications on bolts, screws, nuts, washers, clamps, clips, and more.
- **Industrial Strength:** Perfect for general industrial corrosion protection in construction and surface areas, such as agricultural, construction, and earth-moving equipment (ACE).

### Technical Information

STANDART® Product	Material #	Bulk density	Average D50	Screening > 45 µm	Spec surface Range (BET)
Zinc Matt Black	023732	1.4 g/m³	7 µm	< 1 %	4 m²/g
