

STAPA® HD

New Aluminum Pigment Pastes
with **High Density**

STAPA® HD

New Aluminum Pigment Pastes with **High Density**

ECKART's new **STAPA® HD** metallic pigment pastes boast exceptional hiding power and dazzling brilliance. HD stands for **High Density**. The Cornflake grades of this family additionally convince with their impressive brilliance, while the Silverdollar grades show an unusual flop behaviour and an extraordinary sparkle over all angles.

Why choose pigments of the STAPA® HD product family?

- Superior hiding power
- Resource-efficient – less pigment, more yield
- **Save up to 30%** and achieve unique effects

STAPA® HD 1190/1250 Cornflake grades stand out for:

- High density with stunning brilliance and deep flop
- Brighter than standard metallics

The key features of our STAPA® HD 1315/1415 Silverdollar grades are:

- High density with brightness at all angles
- Impressive sparkle

STAPA® HD grades are your go-to solution for exceptional yield and appearance: Ideal for the industrial coatings and automotive industry – both exterior and interior -, including accessories.

HYDROLAN® versions for water-based systems are already being developed and will be available by the end of April 2025.

Technical Information

STAPA® HD Product	Art. No.	Particle Size Distribution HELOS			NVC [%]
		D10 [µm]	D50 [µm]	D90 [µm]	
1415	028440...	17–23	36–44	62–74	73–77
1315	028638...	14–20	28–36	45–57	63–67
1250	028448...	7–13	21–29	40–52	63–67
1190	028449...	5–11	15–23	27–39	63–67
