SYNCRYSTAL Red	Synthetic Fluorphlogopite (and) Titanium Dioxide (and) Tin Oxide	3.00	www.eckart.net
SYNAFIL S115	Synthetic Fluorphlogopite	5.00	www.eckart.net
Dowsil EP-9610 Cosmetic Powder	Dimethicone Crosspolymer	7.00	www.dowcorning.com

Procedure:

1. Weigh in phase A and heat to 90°
2. Add phase B and stir homogeneous
3. Add phase C step by step and stir homogeneous
4. Pour into an appropriate container

- ⇒ SYNCRYSTAL Red provides a red glow to lips and cheeks while the nude color shade of SYNCRYSTAL Ivory creates a warm luminous red color tone.
- ⇒ SYNAFIL S115 is a semi-translucent filler. It gives an incredibly soft skin feel to the formula, leads to a better pay off and enhances the texture of the application.
- ⇒ TIXOGEL-CCT provides emolliency and ensures a uniform appearance of the formulation. It prevents sedimentation of the effect pigments during the pouring and setting process.

Stability:

Stable for at least 6 months at RT and 40°C.
Stable for at least 1 month at 50°C.
