### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 2 Eye irritation, Category 2 Specific target organ toxicity - single exposure, Category 3, Central nervous system H225: Highly flammable liquid and vapour.

H319: Causes serious eye irritation.

H336: May cause drowsiness or dizziness.

#### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

#### Hazardous components which must be listed on the label:

ethyl acetate

acetone

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| General advice              | :     | Move out of dangerous area.<br>Show this safety data sheet to the doctor in attendance.<br>Do not leave the victim unattended.  |
|-----------------------------|-------|---|
| If inhaled                  | :     | Remove to fresh air.<br>Consult a physician after significant exposure.<br>If unconscious, place in recovery position and seek medical<br>advice.                             |
| In case of skin contact     | :     | If on skin, rinse well with water.<br>If on clothes, remove clothes.  |
| In case of eye contact      | :     | Immediately flush eye(s) with plenty of water.<br>Remove contact lenses.<br>Keep eye wide open while rinsing.<br>If eye irritation persists, consult a specialist.            |
| If swallowed                | :     | Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |
| 4.2 Most important symptoms | and e | ffects, both acute and delayed  |
| Risks                       | :     | Causes serious eye irritation.<br>May cause drowsiness or dizziness.<br>Repeated exposure may cause skin dryness or cracking.   |

according to Regulation (EC) No. 1907/2006

## SILVERDREAM Prismatic H-50550

| Version | Revision Date: | SDS Number:  | Print Date: 03.12.2024          |
|---------|----------------|--------------|---------------------------------|

### **4.3 Indication of any immediate medical attention and special treatment needed** This information is not available.

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media                       |     |  |
|---|-----|--|
| Suitable extinguishing media                  | :   | Alcohol-resistant foam<br>Carbon dioxide (CO2)<br>Dry chemical   |
| Unsuitable extinguishing media                | :   | High volume water jet  |
| 5.2 Special hazards arising from t            | the | substance or mixture   |
| Specific hazards during firefighting          | :   | Do not allow run-off from fire fighting to enter drains or water courses.  |
| 5.3 Advice for firefighters                   |     |  |
| Special protective equipment for firefighters | :   | Wear self-contained breathing apparatus for firefighting if necessary.   |
| Further information                           | :   | Collect contaminated fire extinguishing water separately. This<br>must not be discharged into drains.<br>Fire residues and contaminated fire extinguishing water must<br>be disposed of in accordance with local regulations.<br>For safety reasons in case of fire, cans should be stored<br>separately in closed containments.<br>Use extinguishing measures that are appropriate to local<br>circumstances and the surrounding environment.<br>Use a water spray to cool fully closed containers. |

### **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

### 6.2 Environmental precautions

General advice:Prevent product from entering drains.<br/>Prevent further leakage or spillage if safe to do so.<br/>If the product contaminates rivers and lakes or drains inform<br/>respective authorities.

according to Regulation (EC) No. 1907/2006

## SILVERDREAM Prismatic H-50550

| Version | Revision Date: | SDS Number:  | Print Date: 03.12.2024          |
|---------|----------------|--------------|---------------------------------|
| 1.1     | 03.04.2024     | 102000037195 | Date of first issue: 07.12.2023 |

#### 6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

### 6.4 Reference to other sections

For personal protection see section 8.

### **SECTION 7: Handling and storage**

| 7.1 Precautions for safe handling               | J   |   |
|---|-----|---|
| Advice on safe handling                         | :   | Avoid formation of aerosol.<br>Do not breathe vapours/dust.<br>Avoid exposure - obtain special instructions before use.<br>Avoid contact with skin and eyes.<br>For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the<br>application area.<br>Take precautionary measures against static discharges.<br>Provide sufficient air exchange and/or exhaust in work rooms.<br>Open drum carefully as content may be under pressure.<br>Dispose of rinse water in accordance with local and national<br>regulations. |
| Advice on protection against fire and explosion | :   | Do not spray on a naked flame or any incandescent material.<br>Take necessary action to avoid static electricity discharge<br>(which might cause ignition of organic vapours). Use only<br>explosion-proof equipment. Keep away from open flames, hot<br>surfaces and sources of ignition.  |
| Hygiene measures                                | :   | When using do not eat or drink. When using do not smoke.<br>Wash hands before breaks and at the end of workday.   |
| 7.2 Conditions for safe storage, i              | ncl | uding any incompatibilities   |
| Requirements for storage areas and containers   | :   | No smoking. Keep container tightly closed in a dry and well-<br>ventilated place. Containers which are opened must be<br>carefully resealed and kept upright to prevent leakage.<br>Observe label precautions. Electrical installations / working<br>materials must comply with the technological safety<br>standards.  |
| Further information on storage stability        | :   | No decomposition if stored and applied as directed.   |

according to Regulation (EC) No. 1907/2006

Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

| Substance name                | Environmental Compartment | Value       |
|-------------------------------|---------------------------|-------------|
| ethyl acetate                 | Fresh water               | 0.24 mg/l   |
|                               | Marine water              | 0.024 mg/l  |
|                               | STP                       | 650 mg/l    |
|                               | Fresh water sediment      | 1.15 mg/kg  |
|                               | Marine sediment           | 0.115 mg/kg |
|                               | Soil                      | 0.148 mg/kg |
|                               | periodical release        | 1.65 mg/l   |
|                               | Secondary Poisoning       | 200 mg/kg   |
| aluminium powder (stabilised) | Fresh water               | 0.0749 mg/l |
|                               | clarification plant       | 20 mg/l     |
| acetone                       | Fresh water               | 10.6 mg/l   |
|                               | Marine water              | 1.06 mg/l   |
|                               | Fresh water sediment      | 30.4 mg/kg  |
|                               | Marine sediment           | 3.04 mg/kg  |
|                               | STP                       | 100 mg/l    |
|                               | Soil                      | 29.5 mg/kg  |
|                               | periodical release        | 21 mg/l     |

### 8.2 Exposure controls

### Personal protective equipment

Eye/face protection

:

Tightly fitting safety goggles

Wear face-shield and protective suit for abnormal processing problems.

according to Regulation (EC) No. 1907/2006

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

#### 10.3 Possibility of hazardous reactions

Hazardous reactions : No decomposition if stored and applied as directed.

Vapours may form explosive mixture with air.

### 10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks.

#### 10.5 Incompatible materials

#### 10.6 Hazardous decomposition products

This information is not available.

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Acute toxicity

Not classified based on available information.
