Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

METALURE UV FPG 51501 Version 3.0 Revision Date 11.07.2023 Print Date 27.11.2024 Advice on safe handling : Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Advice on protection against : Normal measures for preventive fire protection. fire and explosion Hygiene measures : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday. 7.2 Conditions for safe storage, including any incompatibilities Requirements for storage : Earthing of containers and apparatuses is essential. Reaction areas and containers with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container closed when not in use. Keep container tightly closed in a dry and well-ventilated place. Electrical installations / working materials must comply with the technological safety standards.

Further information on storage conditions
Advice on common storage
Do not store near acids. Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

Personal protective equipm	t	
Eye protection	Goggles Wear face-shield and protective suit for abnormal processing problems.	
Hand protection		
Material	Solvent-resistant gloves (butyl-rubber)	
Remarks	Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed.	
	Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.	
	Recommended preventive skin protection	
	Skin should be washed after contact.	
	The suitability for a specific workplace should be discussed with the producers of the protective gloves.	
	The suitability for a specific workplace should be discussed with the producers of the protective gloves.	
Skin and body protection	Choose body protection according to the amount and concentration of the dangerous substance at the work place.	
Respiratory protection	Use suitable breathing protection if workplace concentration requires.
