Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

# **METALURE C-51007 MA**

Version 1.0

Revision Date 13.10.2020

Print Date 02.12.2024

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

MA

### **1.1 Product identifier**

Trade name	: METALURE C-51007
Material number	: 026560IA0

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

### 1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address	: msds.eckart@altana.com
Responsible/issuing person	

### 1.4 Emergency telephone number

### NCEC: (contract no.: ECKART29003-NCEC) +44 1235 239671 (Middle East/Africa, call and response in your language) +1 215 207 0061 (Americas, call and response in your language) +65 3158 1074 (Asia-Pacific, call and response in your language)

### **SECTION 2: Hazards identification**

### **GHS Classification**

: Flammable liquids, Category 3, H226 Specific target organ toxicity - single exposure, Category 3, Central nervous system, H336

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

General advice	: Move the victim to fresh air.
	Do not leave the victim unattended.
	Move out of dangerous area.
	Show this safety data sheet to the doctor in attendance.
If inhaled	: Consult a physician after significant exposure.
	If unconscious, place in recovery position and seek medical advice.
In case of skin contact	: Wash off immediately with soap and plenty of water.
	If on skin, rinse well with water.
	If on clothes, remove clothes.
In case of eye contact	: Immediately flush eye(s) with plenty of water.
	Flush eyes with water as a precaution.
	Remove contact lenses.
	Keep eye wide open while rinsing.
If swallowed	: Keep respiratory tract clear.
	Do not give milk or alcoholic beverages.
	Never give anything by mouth to an unconscious person.
	lf symptoms persist, call a physician.

### 4.2 Most important symptoms and effects, both acute and delayed

This information is not available.

### 4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

### **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media	: Dry sand, ABC powder, Fo	am
------------------------------	----------------------------	----

Unsuitable extinguishing : High volume water jet

Page 4 / 21	102000033569	A member of <b>C ALTANA</b>

#### media

### 5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments.

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Evacuate personnel to safe areas. Remove all sources of ignition.
	Evacuate personnel to safe areas.
	Beware of vapours accumulating to form explosive
	concentrations. Vapours can accumulate in low areas.

### 6.2 Environmental precautions

Environmental precautions	: Prevent product from entering drains.
	Prevent further leakage or spillage if safe to do so.
	If the product contaminates rivers and lakes or drains inform
	respective authorities.

### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up	: Use mechanical handling equip	ment.
Page 5 / 21	102000033569	A member of C ALTANA

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

# **METALURE C-51007 MA**

Version 1.0	Revision Date 13.10.2020	Print Date 02.12.2024

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Do not flush with water.

### 6.4 Reference to other sections

For personal protection see section 8.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.		
Advice on protection against fire and explosion	:	: Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.		
Hygiene measures	:	: Wash hands before breaks and at the end of workday.		
7.2 Conditions for safe storage,	incl	uding any incompatibilities		
Requirements for storage areas and containers	:	: Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container		
Page 6 / 21		102000033569	A member of 🜔 ALTANA	

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

### **METALURE C-51007 MA** Version 1.0 Revision Date 13.10.2020 Print Date 02.12.2024 closed when not in use. No smoking. Keep container tightly closed in a dry and wellventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards. Further information on : Protect from humidity and water. storage conditions Advice on common storage : Do not store near acids. Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions. Other data : No decomposition if stored and applied as directed.

### 7.3 Specific end use(s)

This information is not available.

Viscosity, kinematic	:	No data available
Flow time	:	No data available

### 9.2 Other information

No data available

### **SECTION 10: Stability and reactivity**

### 10.1 Reactivity

No decomposition if stored and applied as directed.

### 10.2 Chemical stability

No decomposition if stored and applied as directed.

### 10.3 Possibility of hazardous reactions

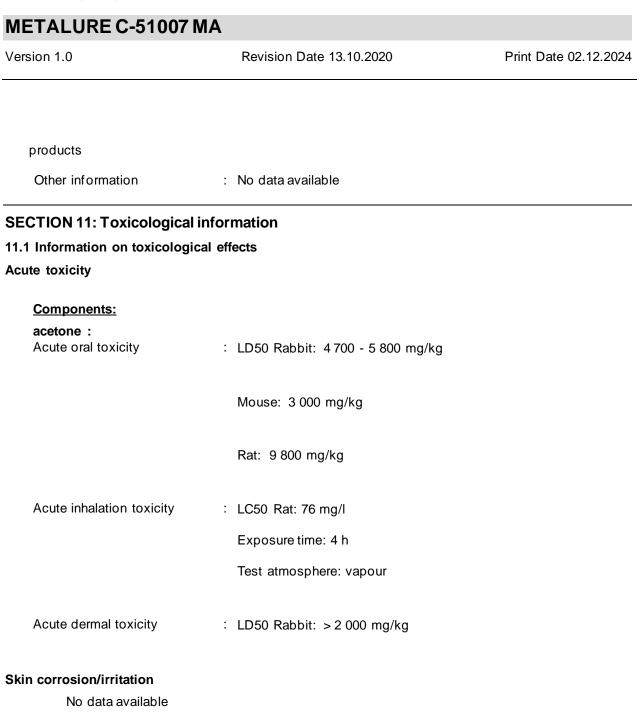

Hazardous reactions	: Contact with acids and alkalis may release hydrogen.
	Stable under recommended storage conditions.
	Vapours may form explosive mixture with air.
10.4 Conditions to avoid	
Conditions to avoid	: Do not allow evaporation to dryness.

Conditions to avoid	Heat, flames and sparks.
10.5 Incompatible materials	
Materials to avoid	: Acids Bases Oxidizing agents

### 10.6 Hazardous decomposition products

Hazardous decomposition	: No data available
