1.1 Product identifier

according to Regulation (EC) No. 1907/2006

METALURE A-61010 MB

Version	Revision Date:	SDS Number:	Print Date: 02.12.2024
3.2	03.04.2024	10200000663	Date of first issue: 05.08.2016

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Trade name	: METALURE A-61010 MB
Product code	: 027500IA0
1.2 Relevant identified uses	of the substance or mixture and uses advised against
Use of the Substance/Mixture	: Colorant; Printing ink related material; Printing ink, Colouring agents, dyes

1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address of person responsible for the SDS	: msds.eckart@altana.com

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 2 Eye irritation, Category 2 H225: Highly flammable liquid and vapour. H319: Causes serious eye irritation.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) Hazard pictograms :

according to Regulation (EC) No. 1907/2006

METALURE A-61010 MB

Version 3.2	Revision Date: 03.04.2024	-	DS Number: 02000000663	Print Date: 02.12.2024 Date of first issue: 05.08.2016
Sig	nal word	:	Danger	
Hazard statements		:	H225 H319	Highly flammable liquid and vapour. Causes serious eye irritation.
Pre	cautionary statements	:	Prevention: P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
			P233 P280	Keep container tightly closed. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
			Response:	
			P303 + P361 + P3	353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
			P337 + P313	If eye irritation persists: Get medical advice/ attention.
			P370 + P378	In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

components

For explanation of abbreviations see section 16.					
SECTION 4: First aid measures					
4.1 Description of first aid measures					

General advice	: Move the victim to fresh air.	
	Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended.	
If inhaled	 Remove to fresh air. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician. 	
In case of skin contact	: Wash off immediately with soap and plenty of water.	
	If on clothes, remove clothes.	
In case of eye contact	: Immediately flush eye(s) with plenty of water.	
	Immediately flush eye(s) with plenty of water. Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.	
If swallowed	 Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. 	

4.2 Most important symptoms and effects, both acute and delayed

Risks	:	Causes	serious	eve	irritation
	•	00000	0011040		made

4.3 Indication of any immediate medical attention and special treatment needed This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	:	Dry sand ABC powder Foam
Unsuitable extinguishing	:	High volume water jet

according to Regulation (EC) No. 1907/2006

METALURE A-61010 MB

Version 3.2	Revision Date: 03.04.2024		9S Number: 2000000663	Print Date: 02.12.2024 Date of first issue: 05.08.2016
media	a		Carbon dioxide (C	:02)
			High volume wate	r jet
5.2 Specia	al hazards arising from	the	substance or mix	xture
Speci firefig	ific hazards during Jhting	:	Do not allow run-c courses.	off from fire fighting to enter drains or water
5.3 Advice	e for firefighters			
	ial protective equipment efighters	:	Wear self-contain necessary.	ed breathing apparatus for firefighting if
Furthe	er information	:	 Collect contaminated fire extinguishing water separately. The must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use a water spray to cool fully closed containers. 	

SECTION 6: Accidental release measures

6.1 Personal precautions, protective	e equipment and emergency procedures
Personal precautions :	Evacuate personnel to safe areas. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.
6.2 Environmental precautions	
General advice :	The product should not be allowed to enter drains, water courses or the soil. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for contai	nment and cleaning up
Methods for cleaning up :	Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
	Contain spillage, and then collect with non-combustible

according to Regulation (EC) No. 1907/2006

Version	Revision Date:	SDS Number:	Print Date: 02.12.2024
3.2	03.04.2024	10200000663	Date of first issue: 05.08.2016

absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2 Conditions for safe storage, in	ncl	uding any incompatibilities
Requirements for storage areas and containers	:	Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container closed when not in use.
		No smoking. Keep container tightly closed in a dry and well- ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
Further information on storage conditions	:	Protect from humidity and water.
Advice on common storage	:	Do not store near acids.

according to Regulation (EC) No. 1907/2006

METALURE A-61010 MB

Version 3.2	Revision Date: 03.04.2024	SDS Number: 102000000663	Print Date: 02.12.2024 Date of first issue: 05.08.2016
		Never allow p storage. Keep away fr	ogether with oxidizing and self-igniting products. roduct to get in contact with water during om oxidizing agents, strongly alkaline and materials in order to avoid exothermic reactions.
	ner information on age stability	: No decompos	sition if stored and applied as directed.
7 3 Speci	ific and use(s)		

7.3 Specific end use(s)

SECTION 8: Exposure controls/personal protection

8.2 Exposure controls

Personal protective equipme	nt
Eye/face protection	 Goggles Tightly fitting safety goggles Wear face-shield and protective suit for abnormal processing problems.
Hand protection	
Material	: Solvent-resistant gloves (butyl-rubber)
Remarks	: Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves.
Skin and body protection	: Impervious clothing Choose body protection according to the amount and concentration of the dangerous substance at the work place.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not classified based on available information.

Components:

aluminium powder (stabilised): Acute inhalation toxicity :	LC50 (Rat): > 5 mg/l Exposure time: 4 h Test atmosphere: dust/mist
acetone:	
Acute oral toxicity :	LD50 (Rabbit): 4,700 - 5,800 mg/kg
	(Mouse): 3,000 mg/kg
	(Rat): 9,800 mg/kg
Acute inhalation toxicity :	LC50 (Rat): 76 mg/l Exposure time: 4 h Test atmosphere: vapour
Acute dermal toxicity :	LD50 (Rabbit): > 2,000 mg/kg
Skin corrosion/irritation Not classified based on available	information.
Product: Remarks :	May cause skin irritation in susceptible persons.
Components:	
acetone: Remarks :	Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin resulting in desiccation of the skin.
Serious eye damage/eye irritat Causes serious eye irritation.	ion
<u>Product:</u> Remarks :	May cause irreversible eye damage.

SECTION 16: Other information

Full text of H-Statements				
H225	:	Highly flammable liquid and vapour.		
H228	:	Flammable solid.		
H319	:	Causes serious eye irritation.		
H336	:	May cause drowsiness or dizziness.		
EUH066	:	Repeated exposure may cause skin dryness or cracking.		
Full text of other abbreviations				
Eye Irrit.	:	Eye irritation		
Flam. Liq.	:	Flammable liquids		
Flam. Sol.	:	Flammable solids		
STOT SE	:	Specific target organ toxicity - single exposure		
2000/39/EC	:	Europe. Commission Directive 2000/39/EC establishing a first		
		list of indicative occupational exposure limit values		
GB EH40	:	UK. EH40 WEL - Workplace Exposure Limits		
2000/39/EC / TWA	:	Limit Value - eight hours		
GB EH40 / TWA	:	Long-term exposure limit (8-hour TWA reference period)		
GB EH40 / STEL	:	Short-term exposure limit (15-minute reference period)		

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AllC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN -Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA - European Chemicals Agency; EC-Number - European Community number; ECx -Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx -Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA -International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO -International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID -Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - Substance of Very

according to Regulation (EC) No. 1907/2006
