STAPA® WM

STAPA® WM SILVER FPG
Food Packaging Solutions
Generally, plastics that are used to produce packaging materials or articles that come into contact with food must fulfill specific requirements. Numerous regulations worldwide are applicable for articles of daily use or their components.

**STAPA® WM SILVER FPG** are specific Food Packaging Grades (FPG) suitable for direct and indirect food contact according to the EU regulations.

All components are listed on the chemical inventories that allow marketing the products in Europe, the US, Canada, China, Australia, New Zealand, Japan, Korea and the Philippines.

If you need more detailed regulatory information of our **STAPA® WM SILVER FPG** please send an email to: product.steward.eckart@altana.com.

The technical specifications and other information in this leaflet reflect our current knowledge. They are solely intended as general information for our customers. Our customers still bear the responsibility for testing the products to ensure suitability for customers’ intended applications and meeting customers’ end-use requirements. We reserve the right to alter product performance and specifications. Our technical consulting service is available for further advice, technical help in solving problems arising in manufacturing and applications, as well as with product formulations. The customer, however, is responsible for reviewing such data and recommendations prior to using them in an application. We assume no liability for the accuracy and completeness of the data presented on this leaflet or any other technical information we provide.

Final legal compliance needs to be verified by the producer of the final article under consideration of the final application and the conditions of use of the product. We recommend migration testing to verify compliance.
