Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

# METALURE L-56161

Version 2.1

Revision Date 26.04.2023

Print Date 19.08.2023

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Trade name	:	METALURE L-56161
Material number	:	056249IA0

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

This information is not available.

#### 1.3 Details of the supplier of the safety data sheet

Company	: ECKART GmbH
	Guentersthal 4
	91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address	: msds.eckart@altana.com
Responsible/issuing person	

#### 1.4 Emergency telephone number

#### NCEC: (contract no.: ECKART29003-NCEC) +44 1235 239671 (Middle East/Africa, call and response in your language) +1 215 207 0061 (Americas, call and response in your language) +65 3158 1074 (Asia-Pacific, call and response in your language)

#### **SECTION 2: Hazards identification**

#### **GHS Classification**

: Flammable liquids, Category 3, H226 Reproductive toxicity, Category 1B, H360 Specific target organ toxicity - single exposure, Category 3,

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General advice	-	Move the victim to fresh air. Move out of dangerous area.
		Show this safety data sheet to the doctor in attendance.
If inhaled		Consult a physician after significant exposure.
		If unconscious, place in recovery position and seek medical advice.
In case of skin contact	:	Wash off immediately with soap and plenty of water.
		If on skin, rinse well with water.
		If on clothes, remove clothes.
In case of eye contact		Immediately flush eye(s) with plenty of water.
		Flush eyes with water as a precaution.
		Remove contact lenses.
		Keep eye wide open while rinsing.
		If eye irritation persists, consult a specialist.
If swallowed	:	Keep respiratory tract clear.
		Do not give milk or alcoholic beverages.
		Never give anything by mouth to an unconscious person.
		If symptoms persist, call a physician.

#### 4.2 Most important symptoms and effects, both acute and delayed

This information is not available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Page 5 / 23	10200000658	A member of <b>O ALTANA</b>	
Unsuitable extinguishing	: High volume water jet, Carbon dioxide (CO2)		
Suitable extinguishing medi	: Dry sand, ABC powder, Foam

Version 2.1	Revision Date 26.04.2023	Print Date 19.08.2023

#### media

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses.
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breathing apparatus.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Evacuate personnel to safe are Remove all sources of ignition. Evacuate personnel to safe are Beware of vapours accumulatin concentrations. Vapours can ac	eas. ng to form explosive
6.2 Environmental precautions		
Environmental precautions	: The product should not be allow courses or the soil.	wed to enter drains, water
	Prevent product from entering on Prevent further leakage or spilla If the product contaminates rive respective authorities.	age if safe to do so.

Version 2.1	Revision Date 26.04.2023	Print Date 19.08.2023

#### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up	<ul> <li>Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Do not flush with water.</li> </ul>
-------------------------	--

#### 6.4 Reference to other sections

For personal protection see section 8.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

	Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
	Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
	Hygiene measures	:	Wash hands before breaks and at the end of workday.
7.2	Conditions for safe storage, in	clu	uding any incompatibilities
	Requirements for storage areas and containers	:	Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use

#### **SECTION 10: Stability and reactivity**

#### **10.1 Reactivity**

No decomposition if stored and applied as directed.

#### **10.2 Chemical stability**

No decomposition if stored and applied as directed.

#### 10.3 Possibility of hazardous reactions

Hazardous reactions	: Contact with acids and alkalis may release hydrogen.
	Stable under recommended storage conditions.
	Vapours may form explosive mixture with air.
10.4 Conditions to avoid	
Conditions to avoid	: Do not allow evaporation to dryness. Heat, flames and sparks.

#### **10.5 Incompatible materials**

Materials to avoid

: Acids Bases Oxidizing agents

#### **10.6 Hazardous decomposition products**

Other information	:	No data available

#### **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

#### **Components:**
