HYDROSHINE WS 3001

Version	Revision Date:	SDS Number:	Print Date: 14.07.2023
3.1	13.07.2023	102000029526	Date of first issue: 28.06.2018

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product	identifier
-------------	------------

Trade name : HYDROSHINE WS 3001

Product code : 005819AN0

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	:	Colorant; Printing ink related material; Printing ink, Colouring
Substance/Mixture		agents, dyes

1.3 Details of the supplier of the safety data sheet

Company	ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address of person responsible for the SDS	: msds.eckart@altana.com

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 2 Eye irritation, Category 2 Specific target organ toxicity - single exposure, Category 3, Central nervous system

H225: Highly flammable liquid and vapour.H319: Causes serious eye irritation.H336: May cause drowsiness or dizziness.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

HYDROSHINE WS 3001

Versio 3.1	on	Revision Date: 13.07.2023	-	DS Number: 02000029526	Print Date: 14.07.2023 Date of first issue: 28.06.2018
F	Hazard	pictograms	:		
S	Signal v	word	:	Danger	×
ŀ	Hazard	statements	:	H225 H319 H336	Highly flammable liquid and vapour. Causes serious eye irritation. May cause drowsiness or dizziness.
F	Precau	tionary statements	:	Prevention: P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
				P233 P261 P280	Keep container tightly closed. Avoid breathing mist or vapours. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
				Response: P303 + P361 + P3	
				P370 + P378	immediately all contaminated clothing. Rinse skin with water. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

Hazardous components which must be listed on the label: propan-2-ol

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

SECTION 4: First aid measures

4.1 Description of first aid measures				
General advice :	Move the victim to fresh air.			
	Move out of dangerous area. Show this safety data sheet to the doctor in attendance.			
If inhaled :	Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.			
In case of skin contact :	Wash off immediately with soap and plenty of water.			
	If on skin, rinse well with water. If on clothes, remove clothes.			
In case of eye contact :	Immediately flush eye(s) with plenty of water.			
	Immediately flush eye(s) with plenty of water. Remove contact lenses. Keep eye wide open while rinsing.			
If swallowed :	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.			

4.2 Most important symptoms and effects, both acute and delayed

Risks	:	Causes serious eye irritation.
		May cause drowsiness or dizziness.

4.3 Indication of any immediate medical attention and special treatment needed This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing	media :	Dry sand ABC powder Foam
Unsuitable extinguishi	ing :	High volume water jet

according to Regulation (EC) No. 1907/2006

HYDROSHINE WS 3001

Versior 3.1	Revision Date: 13.07.2023		DS Number: 2000029526	Print Date: 14.07.2023 Date of first issue: 28.06.2018	
media			Carbon dioxide (CO2)		
5.2 Spe	ecial hazards arising from	the	e substance or mi	xture	
Specific hazards during firefighting		:	Do not allow run-off from fire fighting to enter drains or water courses.		
5.3 Adv	vice for firefighters				
Special protective equipment : for firefighters		:	Wear self-contained breathing apparatus for firefighting if necessary.		
Further information		:	must not be disch Fire residues and be disposed of in For safety reasor	ated fire extinguishing water separately. This harged into drains. I contaminated fire extinguishing water must accordance with local regulations. Is in case of fire, cans should be stored and containments.	

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	 Evacuate personnel to safe areas. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

6.2 Environmental precautions

Environmental precautions	:	The product should not be allowed to enter drains, water
		courses or the soil.

Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	: Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).	
	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth,

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form	Control parameters	Basis		
		of exposure)				
propan-2-ol	67-63-0	TWA	400 ppm	GB EH40		
			999 mg/m3			
		STEL	500 ppm	GB EH40		
			1,250 mg/m3			
aluminium powder (stabilised)	7429-90-5	TWA (Inhalable)	10 mg/m3	GB EH40		
		TWA (Respirable fraction)	4 mg/m3	GB EH40		
		TWA (inhalable dust)	10 mg/m3	GB EH40		
	Further information: For the purposes of these limits, respirable dust and inhalable dust are those fractions of airborne dust which will be collected when sampling is undertaken in accordance with the methods described in MDHS14/4 General methods for sampling and gravimetric analysis or respirable, thoracic and inhalable aerosols., The COSHH definition of a substance hazardous to health includes dust of any kind when present at a concentration in air equal to or greater than 10 mg.m-3 8-hour TWA of inhalable dust or 4 mg.m-3 8-hour TWA of respirable dust. This means that any dust will be subject to COSHH if people are exposed to dust above these levels. Some dusts have been assigned specific WELs and exposure to these must comply with the appropriate limits., Most industrial dusts contain particles of a wide range of sizes. The behaviour, deposition and fate of any particular particle after entry into the human respiratory system, and the body response that it elicits, depend on the nature and size of the particle. HSE distinguishes two size fractions for limit-setting purposes termed 'inhalable' and 'respirable'., Inhalable dust approximates to the fraction of airborne material that enters the nose and mouth during breathing and is therefore available for deposition in the respiratory tract. Respirable dust approximates to the fraction that penetrates to the gas exchange region of the lung. Fuller definitions and explanatory material are given in MDHS14/4., Where dusts contain components that have their own assigned WEL, all the relevant limits should be complied with., Where no specific short-term exposure limit is listed, a figure three times the long-term exposure limit should be used. TWA (Respirable 4 mg/m3 GB EH40

ADR

according to Regulation (EC) No. 1907/2006

HYDROSHINE WS 3001

Version 3.1	Revision Date: 13.07.2023	SDS Number: 102000029526	Print Date: 14.07.2023 Date of first issue: 28.06.2018
Enviro	onmentally hazardous	: no	
IMDG Marine pollutant :		: no	
14.6 Spec	ial precautions for use	er	

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Conditions of restriction for the following entries should be considered: Number on list 3 propan-2-ol (Number on list 3) aluminium powder (stabilised) (Number on list 40) ethanol (Number on list 3) acetic acid (Number on list 3) n-(3- (trimethoxysilyl)propyl)ethylenediami ne (Number on list 3) methanol (Number on list 69, 3)
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	:	Not applicable

15.2 Chemical safety assessment

No data available

SECTION 16: Other information

Full text of H-Statements

H225	:	Highly flammable liquid and vapour.
H228	:	Flammable solid.
H319	:	Causes serious eye irritation.
H336	:	May cause drowsiness or dizziness.

according to Regulation (EC) No. 1907/2006

HYDROSHINE WS 3001

Version 3.1	Revision Date: 13.07.2023	SDS Number: 102000029526	Print Date: 14.07.2023 Date of first issue: 28.06.2018	

Full text of other abbreviations

Eye Irrit.	:	Eye irritation
Flam. Liq.	:	Flammable liquids
Flam. Sol.	:	Flammable solids
STOT SE	:	Specific target organ toxicity - single exposure
GB EH40	:	UK. EH40 WEL - Workplace Exposure Limits
GB EH40 / TWA	:	Long-term exposure limit (8-hour TWA reference period)
GB EH40 / STEL	:	Short-term exposure limit (15-minute reference period)
