| 2.1 | 03.04.2024 | 102000033569 | Date of first issue: 13.10.2020 |

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| Trade name | : METALURE C-51007 MA |
|---------------------------------|---|
| Product code | : 026560IA0 |
| 1.2 Relevant identified uses | of the substance or mixture and uses advised against |
| Use of the Substance/Mixture | : Colorant; Printing ink related material; Printing ink, Colouring agents, dyes |

1.3 Details of the supplier of the safety data sheet

| Company | : ECKART GmbH Guentersthal 4 91235 Hartenstein |
|--|--|
| Telephone | : +499152770 |
| Telefax | : +499152777008 |
| E-mail address of person responsible for the SDS | : msds.eckart@altana.com |

1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 3 Specific target organ toxicity - single exposure, Category 3, Central nervous system H226: Flammable liquid and vapour. H336: May cause drowsiness or dizziness.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

METALURE C-51007 MA

| Version 2.1 | Revision Date: 03.04.2024 | - | DS Number: 02000033569 | Print Date: 05.04.2024 Date of first issue: 13.10.2020 |
|----------------|------------------------------|---|--------------------------------------|--|
| Hazard | d pictograms | : | | |
| Signa | l word | : | Warning | × |
| Hazaro | d statements | : | H226 H336 | Flammable liquid and vapour. May cause drowsiness or dizziness. |
| Preca | utionary statements | : | Prevention: P210 | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| | | | P261 Bosponsor | Avoid breathing mist or vapours. |
| | | | Response: P303 + P361 + P3 | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. |
| | | | P304 + P340 + P3 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell. |
| | | | P370 + P378 | In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish. |
| | | | Storage: P403 + P233 | Store in a well-ventilated place. Keep container tightly closed. |

Hazardous components which must be listed on the label:

2-methoxy-1-methylethyl acetate acetone

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

SECTION 4: First aid measures

4.1 Description of first aid measures

| General advice | : | Move the victim to fresh air. |
|-------------------------|---|---|
| | | Move out of dangerous area. Show this safety data sheet to the doctor in attendance. |
| If inhaled | : | Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice. |
| In case of skin contact | : | Wash off immediately with soap and plenty of water. |
| | | If on skin, rinse well with water. If on clothes, remove clothes. |
| In case of eye contact | : | Immediately flush eye(s) with plenty of water. |
| | | Flush eyes with water as a precaution. Remove contact lenses. Keep eye wide open while rinsing. |
| If swallowed | : | Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. |

4.2 Most important symptoms and effects, both acute and delayed

Risks : May cause drowsiness or dizziness.

4.3 Indication of any immediate medical attention and special treatment needed This information is not available.

according to Regulation (EC) No. 1907/2006

| SECTIO | N 5: Firefighting meas | sur | es | |
| 5.1 Exting | guishing media | | | |
| Suitable extinguishing media | | : | Dry sand ABC powder Foam | |
| Unsuitable extinguishing media | | : | High volume water jet Carbon dioxide (CO2) | |
| 5.2 Specia | al hazards arising from | the | e substance or mix | xture |
| Specific hazards during firefighting | | : | Do not allow run-c courses. | off from fire fighting to enter drains or water |
| 5.3 Advic | e for firefighters | | | |
| Special protective equipment for firefighters | | : | Wear self-contain necessary. | ed breathing apparatus for firefighting if |
| Furth | er information | : | must not be disch Fire residues and be disposed of in | contaminated fire extinguishing water must accordance with local regulations. s in case of fire, cans should be stored |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, protective | equipment and emergency procedures |
|--------------------------------------|--|
| Personal precautions : | Evacuate personnel to safe areas. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. |
| 6.2 Environmental precautions | |
| General advice : | The product should not be allowed to enter drains, water courses or the soil. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities. |
| 6.3 Methods and material for contain | nment and cleaning up |
| Methods for cleaning up : | Use mechanical handling equipment. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). |

according to Regulation (EC) No. 1907/2006

| | | absorbent mat vermiculite) an | ge, and then collect with non-combustible erial, (e.g. sand, earth, diatomaceous earth, d place in container for disposal according to regulations (see section 13). |

Do not flush with water.

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

| 7.1 Precautions for safe handling | |
|--|---|
| Advice on safe handling : | Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. |
| Advice on protection against : fire and explosion | Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition. |
| Hygiene measures : | Wash hands before breaks and at the end of workday. |
| 7.2 Conditions for safe storage, inc Requirements for storage : areas and containers | Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container closed when not in use. No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards. |
| Further information on : storage conditions | Protect from humidity and water. |

| Eye/face protection Hand protection Material | : | Goggles Safety glasses Solvent-resistant gloves (butyl-rubber) |
|--|---|--|
| Remarks | : | Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves. |
| Skin and body protection | : | Choose body protection according to the amount and |
| Respiratory protection | : | concentration of the dangerous substance at the work place. Use suitable breathing protection if workplace concentration requires. |

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

| REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII) | : | Conditions of restriction for the following entries should be considered: Number on list 3 2-methoxy-1-methylethyl acetate (Number on list 40, 3) aluminium powder (stabilised) (Number on list 40) acetone (Number on list 3) |
|--|---|--|
| Regulation (EC) No 1005/2009 on substances that deplete the ozone layer | : | Not applicable |
| Regulation (EU) 2019/1148 on the marketing and use of explosives precursors | : | acetone |
| UK REACH List of substances subject to authorisation | | Not applicable |

according to Regulation (EC) No. 1907/2006
