## Concentrate Stainless Steel 180 kgs 14-07010

Version	Revision Date:	SDS Number:	Print Date: 16.04.2024
4.1	03.04.2024	102000005076	Date of first issue: 28.01.2014

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier		
Trade name	:	Concentrate Stainless Steel 180 kgs 14-07010
Product code	:	08329525V

### **1.2 Relevant identified uses of the substance or mixture and uses advised against** This information is not available.

#### 1.3 Details of the supplier of the safety data sheet

Company		ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	:	+499152770
Telefax	:	+499152777008
E-mail address of person responsible for the SDS	:	msds.eckart@altana.com

#### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 2 Skin irritation, Category 2	H225: Highly flammable liquid and vapour. H315: Causes skin irritation.
Eye irritation, Category 2	H319: Causes serious eye irritation.
Specific target organ toxicity - single	H336: May cause drowsiness or dizziness.
exposure, Category 3, Central nervous	
system	
Specific target organ toxicity - single exposure, Category 3, Respiratory	H335: May cause respiratory irritation.
system	
Specific target organ toxicity - repeated exposure, Category 2	H373: May cause damage to organs through prolonged or repeated exposure.
Aspiration hazard, Category 1	H304: May be fatal if swallowed and enters airways.

according to Regulation (EC) No. 1907/2006

# Concentrate Stainless Steel 180 kgs 14-07010

Version 4.1	Revision Date: 03.04.2024	SDS Number: 10200005076	Print Date: 16.04.2024 Date of first issue: 28.01.2014
Long-t Catego	term (chronic) aquatic h ory 2	nazard, H411	: Toxic to aquatic life with long lasting effects.
2.2 Label e	elements		
	ing (REGULATION (E pictograms	C) No 1272/2008)	
Signal	word	: Danger	• • •
Hazaro	d statements	: H225 H304 H315 H319 H335 H336 H373 H411	Highly flammable liquid and vapour. May be fatal if swallowed and enters airways. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. Toxic to aquatic life with long lasting effects.
Preca	utionary statements	<ul> <li>Prevention: P210</li> <li>P260 P273 Response: P301 + P310</li> <li>P331 P370 + P378</li> <li>P391</li> </ul>	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe mist or vapours. Avoid release to the environment. IF SWALLOWED: Immediately call a POISON CENTER/ doctor. Do NOT induce vomiting. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish. Collect spillage.

Hazardous components which must be listed on the label:

xylene acetone Solvent naphtha (petroleum), light arom.

#### **Additional Labelling**

EUH208 Contains nickel, methyl 2-methylprop-2-enoate, n-butyl methacrylate, N-(3-(trimethoxysilyl)propyl)ethylenediamine. May produce an allergic reaction.

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

according to Regulation (EC) No. 1907/2006

### SECTION 4: First aid measures

### 4.1 Description of first aid measures

General advice	:	Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Symptoms of poisoning may appear several hours later.
lf inhaled	:	Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.
In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
In case of eye contact	:	Immediately flush eye(s) with plenty of water. Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
If swallowed	:	Keep respiratory tract clear.

according to Regulation (EC) No. 1907/2006

		Never give anyth If symptoms per	vomiting. or alcoholic beverages. ning by mouth to an unconscious person. sist, call a physician. ediately to hospital.
4.2 Most i	mportant symptoms a	and effects, both acut	e and delayed
Risks		Causes skin irrita Causes serious o May cause respi May cause drow	eye irritation.

### **4.3 Indication of any immediate medical attention and special treatment needed** This information is not available.

### **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

-			
	Suitable extinguishing media	:	Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
	Unsuitable extinguishing media	:	High volume water jet
5.2	Special hazards arising from	the	substance or mixture
	Specific hazards during firefighting		Do not allow run-off from fire fighting to enter drains or water courses.
5.3	Advice for firefighters		
	Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
	Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored

separately in closed containments. Use a water spray to cool fully closed containers.

according to Regulation (EC) No. 1907/2006

# Concentrate Stainless Steel 180 kgs 14-07010

Version	Revision Date:	SDS Number:	Print Date: 16.04.2024
4.1	03.04.2024	10200005076	Date of first issue: 28.01.2014

### **SECTION 6: Accidental release measures**

	e equipment and emergency procedures Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.
6.2 Environmental precautions	
General advice :	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for contai	nment and cleaning up
Methods for cleaning up :	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

### 6.4 Reference to other sections

For personal protection see section 8.

## **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes.
		For personal protection see section 8.
		Smoking, eating and drinking should be prohibited in the application area.
		Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms.
		Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

### 8.2 Exposure controls

\_

<b>Personal protective equipm</b> Eye/face protection	: We	ar face-shield and protective suit for abnormal processing
Hand protection	pro	blems.
Remarks		e suitability for a specific workplace should be discussed the producers of the protective gloves.
Skin and body protection	: Cho	bose body protection according to the amount and incentration of the dangerous substance at the work place.
Respiratory protection	: In t	he case of vapour formation use a respirator with an proved filter.

## **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

Form	:	liquid
Colour	:	grey
Odour	:	characteristic
Odour Threshold	:	No data available
Freezing point	:	No data available
Boiling point/boiling range	:	45 °C
Flammability	:	No data available
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Flash point	:	-18 °C

according to Regulation (EC) No. 1907/2006

### Aspiration toxicity

May be fatal if swallowed and enters airways.

### **Components:**

xylene: May be fatal if swallowed and enters airways.

### Solvent naphtha (petroleum), light arom .:

May be fatal if swallowed and enters airways.

### 11.2 Information on other hazards

### **Further information**

## Product:

Remarks

Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Concentrations substantially above the TLV value may cause narcotic effects. Solvents may degrease the skin.

### **SECTION 12: Ecological information**

### 12.1 Toxicity

#### **Components:**

### acetone:

Toxicity to daphnia and other : (Daphnia magna (Water flea)): 21,600 mg/l aquatic invertebrates

### Solvent naphtha (petroleum), light arom .:

### **Ecotoxicology Assessment**

Chronic aquatic toxicity	:	Toxic to aquatic life with long lasting effects.
--------------------------	---	--

#### chromium:

Ecotoxicology Assessment		
Chronic aquatic toxicity	:	May cause long lasting harmful effects to aquatic life.

### nickel:

Chronic aquatic toxicity	:	Harmful to aquatic life with long lasting effects.
--------------------------	---	--

#### zinc oxide:
