SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

### STAPA IL HYDROLAN 9160 55900/G Aluminium Paste

Version	Revision Date:	SDS Number:	Print Date: 15.04.2024
6.0	17.08.2023	102000000226	Date of first issue: 02.01.2014

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier	
Trade name	: STAPA IL HYDROLAN 9160 55900/G Aluminium Paste
Product code	: 005701HV0

#### **1.2 Relevant identified uses of the substance or mixture and uses advised against** Use of the : Colouring agent

Use of the	: Colouring agent
Substance/Mixture	Colouring agents, pigments

#### 1.3 Details of the supplier of the safety data sheet

Company	:	ECKART Suisse SA Route de la Brasserie 2 1963 Vétroz
Telephone	:	+410273454800
Telefax	:	+410273454859
E-mail address of person responsible for the SDS	:	msds.eckart@altana.com

#### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

Flammable solids, Category 1 Eye irritation, Category 2 Specific target organ toxicity - single exposure, Category 3, Central nervous system H228: Flammable solid.

H319: Causes serious eye irritation.

H336: May cause drowsiness or dizziness.

#### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

A member of **C ALTANA** 

according to Regulation (EC) No. 1907/2006

# **C**ECKART

### STAPA IL HYDROLAN 9160 55900/G Aluminium Paste

Version 6.0	Revision Date: 17.08.2023	SDS Number: 102000000226	Print Date: 15.04.2024 Date of first issue: 02.01.2014
Hazaro	d pictograms		
Signal	word	: Danger	•
Hazaro	d statements	: H228 H319 H336	Flammable solid. Causes serious eye irritation. May cause drowsiness or dizziness.
Preca	utionary statements	Prevention	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
		P261 P280	Avoid breathing dust. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
		<b>Response:</b> P304 + P34	0 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell.
		P370 + P37	
		P370 + P37	

#### Hazardous components which must be listed on the label:

propan-2-ol Solvent naphtha (petroleum), light arom.

#### Additional Labelling

EUH208 Contains N-(3-(trimethoxysilyl)propyl)ethylenediamine. May produce an allergic reaction.

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

#### **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Chemical nature : Pigment

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General advice	:	Move the victim to fresh air.
		Move out of dangerous area. Show this safety data sheet to the doctor in attendance.
If inhaled	:	Consult a physician after significant exposure.

Version 6.0	Revision Date: 17.08.2023	SDS Number: 102000000226	Print Date: 15.04.2024 Date of first issue: 02.01.2014		
		If unconsciou advice.	us, place in recovery position and seek medical		
In cas	se of skin contact	: Wash off im	mediately with soap and plenty of water.		
		,	se well with water. , remove clothes.		
In case of eye contact		Remove con	<ul> <li>Immediately flush eye(s) with plenty of water.</li> <li>Remove contact lenses.</li> <li>Keep eye wide open while rinsing.</li> </ul>		
If swallowed		Do not give r Never give a	tory tract clear. nilk or alcoholic beverages. nything by mouth to an unconscious person. persist, call a physician.		

#### 4.2 Most important symptoms and effects, both acute and delayed

Risks	:	Causes serious eye irritation.
		May cause drowsiness or dizziness.

## 4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

#### **SECTION 5: Firefighting measures**

<b>5.1 Extinguishing media</b> Suitable extinguishing media	:	Dry sand Special powder against metal fire
Unsuitable extinguishing media	:	Water Foam Carbon dioxide (CO2) ABC powder
5.2 Special hazards arising from	the	e substance or mixture
Specific hazards during firefighting	:	Contact with water liberates extremely flammable gas (hydrogen).
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Use personal protective equipment.
		Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires.

SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

		-	shing measures that are appropriate to local es and the surrounding environment.		
SECTIO	N 6: Accidental relea	ase measures			
6.1 Perso	nal precautions, prote	ective equipment	and emergency procedures		
Perso	onal precautions	Use persona Use persona Avoid dust fo	rsonnel to safe areas. I protective equipment. I protective equipment. prmation. sources of ignition.		
	onmental precautions onmental precautions	: The product courses or the	should not be allowed to enter drains, water ne soil.		
		Prevent furth	duct from entering drains. her leakage or spillage if safe to do so. t contaminates rivers and lakes or drains inform uthorities.		
6.3 Methods and material for containment and cleaning up					
	ods for cleaning up	: Use mechan Soak up with acid binder, Do not flush	ical handling equipment. n inert absorbent material (e.g. sand, silica gel, universal binder, sawdust).		

#### 6.4 Reference to other sections

For personal protection see section 8.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Advice on safe handling :	Keep away from heat and sources of ignition. Avoid dust formation. Ensure adequate ventilation. Avoid formation of respirable particles. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8.

#### 8.2 Exposure controls

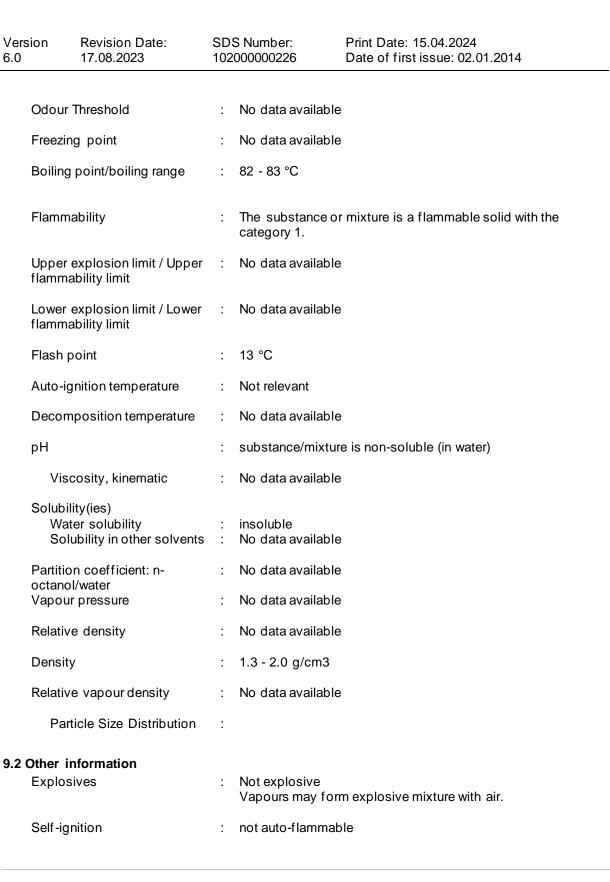

Personal protective equipme	ent	
Eye/face protection	:	Wear face-shield and protective suit for abnormal processing problems.
Hand protection Material	:	Solvent-resistant gloves (butyl-rubber)
Remarks	:	Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). The exact break through time can be obtained from the protective glove producer and this has to be observed. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Recommended preventive skin protection Skin should be washed after contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves.
Skin and body protection	:	Long sleeved clothing Safety shoes Choose body protection according to the amount and
Respiratory protection	:	concentration of the dangerous substance at the work place. Use suitable breathing protection if workplace concentration requires.

#### **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

Physical state	: Pasty solid
Colour	: silver
Odour	: solvent-like

according to Regulation (EC) No. 1907/2006

Version	Revision Date:	SDS Number:	Print Date: 15.04.2024
6.0	17.08.2023	102000000226	Date of first issue: 02.01.2014

Miscibility with water

: partly miscible

#### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No decomposition if stored and applied as directed.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

#### 10.3 Possibility of hazardous reactions

<ul> <li>Reacts with alkalis, acids, halogenes and oxidizing agents. Contact with acids and alkalis may release hydrogen. Mixture reacts slowly with water resulting in evolution of hydrogen. Vapours may form explosive mixture with air. Stable under recommended storage conditions.</li> </ul>

#### 10.4 Conditions to avoid

Conditions to avoid

: Do not allow to dry.

Heat, flames and sparks.

#### 10.5 Incompatible materials

Materials to avoid

: Acids Bases Oxidizing agents Highly halogenated compounds

#### 10.6 Hazardous decomposition products

This information is not available.

#### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

#### Aspiration toxicity

Not classified based on available information.

#### Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha: May be fatal if swallowed and enters airways.

### Solvent naphtha (petroleum), light arom.:

May be fatal if swallowed and enters airways.

#### 11.2 Information on other hazards

#### **Further information**

#### Product:

Remarks

 Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
 Concentrations substantially above the TLV value may cause narcotic effects.
 Solvents may degrease the skin.

#### **SECTION 12: Ecological information**

#### 12.1 Toxicity

#### Components:

Solvent naphtha (petroleum), light arom.:

#### Ecotoxicology Assessment

Chronic aquatic toxicity : Toxic to aquatic life with long lasting effects.

#### 12.2 Persistence and degradability

No data available

- **12.3 Bioaccumulative potential** No data available
- 12.4 Mobility in soil

No data available

#### 12.5 Results of PBT and vPvB assessment

#### Product:

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of

according to Regulation (EC) No. 1907/2006

### STAPA IL HYDROLAN 9160 55900/G Aluminium Paste

0.1% or higher.

### 12.6 Endocrine disrupting properties

No data available

#### 12.7 Other adverse effects

#### Product:

Additional ecological	:	No data available
information		

#### Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha:Additional ecological:No data availableinformation

#### **SECTION 13: Disposal considerations**

European Waste Catalogue European Waste Catalogue	:	12 01 04 - non-ferrous metal dust and particles 10 03 21 - other particulates and dust (including ball-mill dust) containing hazardous substances
13.1 Waste treatment methods		
Product	:	Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company. In accordance with local and national regulations.
Contaminated packaging	:	Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum. In accordance with local and national regulations.

#### 14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

#### **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Conditions of restriction for the following entries should be considered: aluminium powder (stabilised) (Number on list 40) propan-2-ol (Number on list 3) ethanol (Number on list 3) Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha (Number on list 3) Solvent naphtha (petroleum), light arom. (Number on list 3) N-(3- (trimethoxysilyl)propyl)ethylenediami ne (Number on list 3)
UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	:	Not applicable
The Persistent Organic Pollutants Regulations (retained Regulation (EU) 2019/1021 as amended for Great Britain)	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	:	Not applicable
2 Chomical safety assessment		

#### 15.2 Chemical safety assessment

No data available

C ECKART

according to Regulation (EC) No. 1907/2006

#### Full text of H-Statements

H225	:	Highly flammable liquid and vapour.	
H226	:	Flammable liquid and vapour.	
H228	:	Flammable solid.	
H304	:	May be fatal if swallowed and enters airways.	
H317	:	May cause an allergic skin reaction.	
H318	:	Causes serious eye damage.	
H319	:	Causes serious eye irritation.	
H332	:	Harmful if inhaled.	
H335	:	May cause respiratory irritation.	
H336	:	May cause drowsiness or dizziness.	
H411	:	Toxic to aquatic life with long lasting effects.	
EUH066	:	Repeated exposure may cause skin dryness or cracking.
