# SECTION 1: Identification of the substance/mixture and of the company/undertaking

Trade name : STANDART PCBF 5000

Product code : 023570E30

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	
Substance/Mixture	

: Colouring agents, pigments

#### 1.3 Details of the supplier of the safety data sheet

Company	ECKART GmbH Guentersthal 4 91235 Hartenstein
Telephone	: +499152770
Telefax	: +499152777008
E-mail address of person responsible for the SDS	: msds.eckart@altana.com

### 1.4 Emergency telephone number

NCEC: +44 1235 239670 (Europe) Call and response in your language is possible. Contract no.: ECKART29003-NCEC.

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Not a dangerous substance according to GHS.

Information concerning particular hazards for human and environment:

Please refer to our website for further important safety instructions for handling aluminium powder:

http://www.eckart.net/fileadmin/eckart/Service/GDA\_Alupulver\_Safety\_engl.pdf

#### 2.2 Label elements

### Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to the Globally Harmonised System (GHS).

according to Regulation (EC) No. 1907/2006

# **STANDART PCBF 5000**

Version	Revision Date:	SDS Number:	Print Date: 23.11.2023
3.1	22.11.2023	102000028700	Date of first issue: 14.12.2017

#### 2.3 Other hazards

**Combustible Solids** 

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

For explanation of abbreviations see section 16.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General advice	:	Move the victim to fresh air.
		No hazards which require special first aid measures.
If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of skin contact	:	Wash off immediately with soap and plenty of water.
In case of eye contact	:	Remove contact lenses.
If swallowed	:	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

### **4.2 Most important symptoms and effects, both acute and delayed** None known.

according to Regulation (EC) No. 1907/2006

# **STANDART PCBF 5000**

Version	Revision Date:	SDS Number:	Print Date: 23.11.2023
3.1	22.11.2023	102000028700	Date of first issue: 14.12.2017

# 4.3 Indication of any immediate medical attention and special treatment needed

# **SECTION 5: Firefighting measures**

5.1 Extinguishing media		
Suitable extinguishing media	:	Dry sand Special powder against metal fire
Unsuitable extinguishing media	:	ABC powder Carbon dioxide (CO2) Water Foam
5.2 Special hazards arising from the substance or mixture		
Specific hazards during firefighting	:	Contact with water liberates extremely flammable gas (hydrogen).
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

# **SECTION 6: Accidental release measures**

6.1 Personal precautions, protect	ive equipment and emergency procedures
Personal precautions	: Use personal protective equipment. Evacuate personnel to safe areas. Avoid dust formation.
6.2 Environmental precautions	
General advice	<ul> <li>The product should not be allowed to enter drains, water courses or the soil.</li> <li>If the product contaminates rivers and lakes or drains inform respective authorities.</li> </ul>
6.3 Methods and material for cont	tainment and cleaning up
Methods for cleaning up	: Use mechanical handling equipment. Do not use a vacuum cleaner.
	Pick up and arrange disposal without creating dust. Sweep up and shovel. Do not flush with water. Keep in suitable, closed containers for disposal.

according to Regulation (EC) No. 1907/2006

# **STANDART PCBF 5000**

Version	Revision Date:	SDS Number:	Print Date:
3.1	22.11.2023	102000028700	Date of fire

Print Date: 23.11.2023 Date of first issue: 14.12.2017

# 6.4 Reference to other sections

For personal protection see section 8.

# SECTION 7: Handling and storage

7.1 Precautions for safe handling		
Advice on safe handling Advice on protection against	:	Avoid creating dust. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Keep away from heat and sources of ignition. Do not smoke. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. During processing, dust may form explosive mixture in air.
fire and explosion		Take measures to prevent the build up of electrostatic charge. Earthing of containers and apparatuses is essential. Use explosion-proof equipment. When transferring from one container to another apply earthing measures and use conductive hose material. Normal measures for preventive fire protection.
Hygiene measures	:	General industrial hygiene practice.
7.2 Conditions for safe storage, ir	ncl	uding any incompatibilities
Requirements for storage areas and containers	:	Reaction with water liberates extremely flammable gas (hydrogen) Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep container closed when not in use. Keep away from sources of ignition - No smoking.
		Electrical installations / working materials must comply with the technological safety standards.
Further information on storage conditions	:	Protect from humidity and water.
Advice on common storage	:	Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.
Further information on storage stability	:	Keep in a dry place. No decomposition if stored and applied as directed.
