#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures General advice : Move the victim to fresh air. Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. If inhaled Remove to fresh air. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician. In case of skin contact : Wash off immediately with soap and plenty of water. If on clothes, remove clothes. In case of eye contact Flush eyes with water as a precaution. : Remove contact lenses. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. If swallowed Keep respiratory tract clear. ÷ Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

#### **4.2 Most important symptoms and effects, both acute and delayed** None known.

4.3 Indication of any immediate medical attention and special treatment needed

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media	:	Dry sand Special powder against metal fire
Unsuitable extinguishing media	:	ABC powder Carbon dioxide (CO2) Water Foam
		High volume water jet

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during	:	Contact with water liberates extremely flammable gas
firefighting		(hydrogen).

5.3 Advice	for firefighters				
Special protective equipment for firefighters		:	: Wear self-contained breathing apparatus for firefighting if necessary.		
Further information		:	For safety reasons in case of fire, cans should be store separately in closed containments. Use extinguishing measures that are appropriate to loc circumstances and the surrounding environment. Use a water spray to cool fully closed containers.		

### **SECTION 6:** Accidental release measures

	<b>ve equipment and emergency procedures</b> Use personal protective equipment. Evacuate personnel to safe areas. Avoid dust formation. Remove all sources of ignition.
6.2 Environmental precautions	
General advice :	The product should not be allowed to enter drains, water courses or the soil. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for conta	inment and cleaning up
Methods for cleaning up :	Use mechanical handling equipment. Do not use a vacuum cleaner.
	Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.
