SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	: Move the victim to fresh air. Move out of dangerous area.	
	Show this safety data sheet to the Do not leave the victim unattend	
If inhaled	: Remove to fresh air.	
	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.	
In case of skin contact	: Wash off immediately with soar If skin irritation persists, call a p	p and plenty of water.

	If on clothes, remove clothes.	
In case of eye contact	 Flush eyes with water as a precaution. Remove contact lenses. Keep eye wide open while rinsing. 	
If swallowed	 If eye irritation persists, consult a specialist Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an uncon If symptoms persist, call a physician. 	

4.2 Most important symptoms and effects, both acute and delayed

This information is not available.

4.3 Indication of any immediate medical attention and special treatment needed

This information is not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	: Dry sand, Special powder against metal fire
Unsuitable extinguishing media	: ABC powder, Carbon dioxide (CO2), Water, Foam
	Liberta constantint

High volume water jet

5.2 Special hazards arising from the substance or mixture

Specific hazards during	: Contact with water liberates extremely flammable gas
firefighting	(hydrogen).

5.3 Advice for firefighters

Special protective equipment for firefighters	: Wear self-contained breathing apparatus for firefighting if necessary.
Further information	: For safety reasons in case of fire, cans should be stored

separately in closed containments. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use a water spray to cool fully closed containers.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	 Use personal protective equipment. Evacuate personnel to safe areas. Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Remove all sources of ignition.
----------------------	---

6.2 Environmental precautions

General advice	: The product should not be allowed to enter drains, water courses or the soil.
	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so.
	If the product contaminates rivers and lakes or drains inform respective authorities.

This information is not available.

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up	: Use mechanical handling equipment.
	Do not use a vacuum cleaner.
	Contain spillage, and then collect with an electrically protected
	vacuum cleaner or by wet-brushing and place in container for
	disposal according to local regulations (see section 13).
	Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	Avoid creating dust. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Store away from heat.
	Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against : fire and explosion	Use explosion-proof equipment. During processing, dust may form explosive mixture in air. Take measures to prevent the build up of electrostatic charge. When transferring from one container to another apply earthing measures and use conductive hose material.
	Avoid dust formation. Provide appropriate exhaust ventilation at places where dust is formed. Keep away from open flames, hot surfaces and sources of ignition.
Hygiene measures	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	: Earthing of containers and apparatuses is essential. Reaction with water liberates extremely flammable gas (hydrogen) Use explosion-proof equipment. Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition - No smoking. Keep container closed when not in use.
	No smoking. Keep container tightly closed in a dry and well- ventilated place. Electrical installations / working materials

	must comply with the technological safety s	tandards.

Further information on storage conditions	: Protect from humidity and water.
Advice on common storage	: Do not store together with oxidizing and self-igniting products. Never allow product to get in contact with water during storage. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.
Other data	: Keep in a dry place. No decomposition if stored and applied as directed.

7.3 Specific end use(s)
