material denomination  STAPA 2 TS Aluminium Paste
material-no.  053273
material description  Aluminium pigment paste - leafing

Specific gravity app. 1,4 kg/l
Aluminium paste in mineral spirit incl. additives

insp. characteristic                  specification       unit
T100004 volatile content             33,0 - 37,0        %
T100004 pigment content / non volatile 63,0 - 67,0        %
T100005 sieving < 71 µm                  98,0 - 100,0     %
Wet Screen Analysis with Benzine
T100009 D 10                          3,0 - 7,0          µm
Particle Size Distrib. - Cilas 1064
T100009 D 50                          17,0 - 23,0        µm
Particle Size Distrib. - Cilas 1064
T100009 D 90                          54,0 - 64,0        µm
Particle Size Distrib. - Cilas 1064
T100003 water content                 0,0 - 0,1          %
T100006 leafing value                 65 - 100           %

total shelf life in month:  12

EC-safety data sheet-no. 053273ZZ3

The Data on this technical information sheet correspond with the current status of our knowledge and experience.
The liability for the application and processing of our products lies with the buyer, and he is also responsible for observing any third party
inghts.
We reserve the right to alter any product data as a result of technical progress or further developments in the manufacturing process.
